#### 2 Our school's Education

##### (1) School's educational aim

Our school bring up our students ... Our aim is to raise the students who can live well, we train the students as harmonious human on knowledge, morals and physical strength and we also train them to respect public mind and have great vitality and sound both in ,mind and body.

##### (2) Management policy

###### • Pleasant • Beautiful school

Through voluntary activities and experience, we try to create the educational activity that the students feel happy when they are learning and they're with their friends. And our school aims at the place where the students can behave lively.

###### • Warm and vital teachers

We teachers encourage each student to live hard, try to understand all students with deep affections and support their attitude to live a full and safe life.

###### • School loved from each home and the local

We closely cooperate with each home, the local and various relations, make teaching materials about the local feature, make good use of the talented persons in our area, and want our school to develop with the local and open the public.
